## WATER FOR UTAH

# BOARD OF WATER RESOURCES FUNDING PROGRAM REVIEW

October 1999

#### UTAH BOARD OF WATER RESOURCES

In 1947 the State Legislature established the Board of Water Resources for the purpose of providing technical and financial assistance to public or private entities desiring to more effectively utilize the state's water resources. Since initiation of that policy, the state has appropriated approximately \$176 million for water development. Because the Board requires most financial assistance be repaid (hence the term revolving loan program is often used) the Board has provided over \$356 million through its Revolving Construction, Cities Water Loan, and Conservation and Development Funds for a ratio of almost \$2.00 in construction for each dollar appropriated. Funding programs are administered through the Division of Water Resources, Utah Department of Natural Resources, under supervision of the eight-member Board of Water Resources. The Board and Division are charged with planning for full utilization of the water and power years the Board and Division have 52 resources of the state. During the past 1118 been involved in the planning, design, construction, and financing of water projects.
